AT HIA CSR VICTOR

MODERN ARCHITECTURAL STYLE TRIUMPHS AT HIA CSR VICTORIAN HOUSING AWARDS

A luxurious five-bedroom residence that comprises an eclectic range of architectural styles has been awarded the HIA CSR Victorian Home of the Year.

Ducon has been awarded one of the housing industry's highest recognitions, as HIA-CSR Victorian Home of the Year for its bayside custom built home.

Ducon was awarded the accolade tonight at the HIA-CSR Victorian Housing and Kitchen & Bathroom Awards at Crown Towers before a crowd of hundreds of industry leaders and peers.

A bold venture between architect, builder and client has resulted in a striking example of how a dwelling expresses an original design and quality structure.

This unique residence combines simple forms and pure geometry to ensure a crisp built form which is well-proportioned in volume. The interplay of solid and void spaces in both horizontal and vertical dimensions creates a rich and interesting series of experiences as you move from the street through the home.

'The pedestrian entrance strikes straight to the heart of the home, where spaces flow vertically and horizontally, offering a sense of freedom. A confidence in the home's spirit extends to the selection and application of building materials,' the judges commented.

'Wall surfaces glisten super smooth, both inside and out, polished vertical timber lining boards articulate zones and large pavers complete the floor,' they added.

'This elegant, relaxing and flexible family home takes a form of interconnecting boxes, some double volume whilst others single. The individual tradesmanship was truly exceptional, particularly at the junction of various materials which combined seamlessly – different types of concrete were not clearly evident.'

'The design is highly functional with the creation of six discrete zones making it effortless to move from space to space. The home sits comfortably amongst an eclectic range of architectural styles from different times in this bayside suburb of Melbourne.'

HIA Victorian Executive Director Gil King congratulated the winners. 'The Victorian residential construction industry operates in a very dynamic and constantly evolving environment. We are presented with many new challenges and changes to what we do and how we do it.' Mr. King said.

'The HIA CSR Victoria Housing and Kitchen & Bathroom Awards allow us to recognise excellence and reward HIA members on their high quality of workmanship, design effectiveness, visual appeal, innovation, environmental sustainability and of course, value for money,' he added. 'HIA is delighted with the exceptional quality of entries this year. All winners and finalists should be proud to have reached the pinnacle of building standards demonstrated in these quality homes,' he said.

'It can be easy to be distracted by the negatives in the current economy, however Victorian builders are still expected to build in excess of 40,000 dwellings this financial year. This is in addition to almost \$7 million in renovation and additions activity,' said Mr. King.

Ducon will go on to compete against other Custom Built Homes from around the country at the 2014 HIA Australian Housing Awards, to be held in Queensland in May.
